

Sprint 1 Plan
Pronzo
Noodles
Completion: 04 - 10 - 2017
v1.0.1
Revision: 04 - 14 - 2017

Goal

- Create a usable application with user profiles. Users will be able to fill in their information, food preferences, and user interests
- Create a settings page so a user can change and update their settings
- Create a post board for meet ups with the intention of adding a map linked to the posts

User Stories

- As a user, I want an application that can connect me with professionals so that I can build connections within my industry (21)
 - Build a post board page (4 hours)
 - Create a post page (4 hours)
 - Organize a profile and settings page (4 hours)
 - Create an expanded event page (4 hours)
- As a user, I want a login in with LinkedIn or .edu email logins only to ensure a safe login system (2)
 - Implement Firebase authentication (5 hours)
 - Build a login and signup page (3 hours)
- As a user, I want to be able to build a profile so professionals can see if they are interested in connecting with me. (3)
 - Build the features of a profile page and add edit profile options (4 hours)
- As a user, I want to see when and where other like-minded professionals are planning to go to lunch so that I can schedule meetings (8)
 - Build the database for users and events (7 hours)
 - Pull in the database to the post board page (3 hours)

Team Roles

- Roy Shadmon: Product Owner
- Dean Rabinowitz: Developer
- Shanee Dinay: Scrum Master
- Surya Ruddaraju: Developer
- Alex Au: Developer

Initial Task Assignments

- Roy Shadmon
 - As a user, I want a login in with LinkedIn or .edu email logins only to ensure a safe login system (2)
