

## System and Unit Test Report

Product Name: Pronzo

Team name: Pronzo developers

June 5, 2017

A. As a user, I want to sign up when I do not have an account to join the event post page (3)

Scenario:

1. Start the Pronzo app; select 'Sign up'; type
  - a. First Name = <[Your First Name]>
  - b. Last Name = <[Your Last Name]>
  - c. Username = <[Your username]>
  - d. Email = <[Your email]>
  - e. Password = <[Your ideal password]>
  - f. Press 'Create Account'
2. User should have an active account.
3. User should be redirected to the events page.

B. As a user, I want a login in with email logins only to ensure a safe login system (2)

Scenario:

1. Start the Pronzo app; type
  - a. Email = <[Your Email]>
  - b. Password = <[Your Password]>
  - c. Press 'Sign In'
2. User should be logged in and redirected to the events page.

C. As a user, I want to see when and where other like-minded professionals are planning to go to lunch so that I can schedule meetings (8)

1. Start the Pronzo app
2. Login with your credentials

3. You should see a list of events
4. Click on an event you'd like to attend
5. Click the "join" button on the top right
6. Click the "back" button on the top left
7. Click on the event you joined
  - a. You should now see that you are attending the event
